INTRODUCTION

The IIE's Postgraduate Certificate in Education in Senior Phase (SP) and Further Education and Training (FET) is a professional teaching programme that targets graduates with a suitable undergraduate degree or an approved diploma in appropriate and scarce fields in the teaching profession. The programme offers entry-level professional preparation for undergraduate degree or diploma holders¹ who wish to develop focused knowledge and skills as classroom teachers in the Senior Phase and Further Education and Training band in their chosen subjects.

The purpose of this programme is to qualify students to follow a career in teaching in the Senior Phase (Grades 7-9) and Further Education and Training band (Grades 10-12).

This PGCE programme is structured in accordance with the Department of Higher Education and Training's (DHET) Policy on Minimum Requirements for Teacher Education Qualifications (2015). It is also aligned with the new Higher Education Qualifications Sub-Framework's (HEQSF) guidelines. The programme will equip SP and FET student teachers with the knowledge, skills and applied competencies for employability and further specialisation study, in support of the principles of life-long learning.

The IIE's PGCE (Senior Phase and Further Education and Training) provides a fundamental and comprehensive education underpinned by subject and pedagogic knowledge in specialized teaching in specific Senior Phase and Further Education and Training band subjects.

The programme focuses on foundational education theory and methodology and is therefore closely aligned with the requirements of a professionally qualified beginner teacher.

As an IIE distance student you will receive all your support online from a dedicated team of IIE Varsity College Online tutors.

¹ Consideration may be given to holders of 360 credit exit Level 6 diplomas in appropriate and scarce fields as identified by the Department of Higher Education and Training (2015).

The IIE's Postgraduate Certificate in Education in Senior Phase and Further Education and Training Teaching (Distance) is offered over one year or two years. The modules are presented via a distance mode of delivery; supported by online mediation sessions. Students will be required to complete various forms of assessments and activities; different assessment approaches are integrated throughout all modules on the programme.

Informed by the principle of flexibility, a selection of modules will be offered each semester to accommodate a study journey to suit the personal needs of the student within the qualification progression rules.

The curriculum below is correct at the time of print. Please note that in line with academic practice, The IIE's curriculum is reviewed annually thus changes may occur in module structure and sequence in order to ensure that the qualification remains relevant.

The exit level outcomes of the programme do not change.

Registered students receive an updated programme curriculum on an annual basis.
